

WiFi adaptor for S120 and RH sensors

Remotely monitor your S120 digital imaging particle counter or FT-RH relative humidity sensor by connecting them directly to your WiFi network.

Displays data (charts & tables) and download data from a web page within you local WiFi network

View sensor data directly from your mobile device

WiFi Adaptor Specifications

- 24V supply
- 2.54Ghz 802.11 b/g/n
- Low power usage
- Enough internal storage to log over 2000 years' worth of data (at 2 minute intervals)
- IP66/67
- Email alerts
- RS485 Modbus connection to S120 particle counter
- RS485 or 4-20mA input for connection to RH and Temperature
