

Performance Replacement Elements

Filtertechnik produces high performance replacement elements for circuits where superior oil cleanliness and low element pressure drops are a must.

Our products are ideal for applications requiring precise machine control in the toughest of environments with long intervals between service.

A superior media with the best available combination of:

- Higher Efficiency
- Lower Pressure Drop
- Exceptional Dirt Holding Capacity

What this means to you:

- Cleaner Oil
- Longer Element Life
- Less Downtime

We offer equivalents or originals:

- Pall
- Hydac
- Vickers
- Stauff
- Parker
- EPE
- Donaldson

Filtration Efficiencies of Schroeder Excellement (Z) Media

Schroeder P/N	BETA per ISO 4572	BETA per NIST 16889
SBF-9600-4Z1B	$\beta_1 \geq 200$	$\beta_{4.2(c)} \geq 1000$
SBF-9600-4Z3B	$\beta_3 \geq 200$	$\beta_{5.8(c)} \geq 1000$
SBF-9600-4Z5B	$\beta_5 \geq 200$	$\beta_{7.5(c)} \geq 1000$
SBF-9600-4Z10B	$\beta_{10} \geq 200$	$\beta_{12.7(c)} \geq 1000$
SBF-9600-4Z25B	$\beta_{25} \geq 200$	$\beta_{24(c)} \geq 1000$
