# FTECH-PORE TP

## PLEATED MEMBRANE FILTER CARTRIDGE

Ftech-Pore TP Microfiltration cartridges have been designed specifically for use in a wide range of aggressive gas and liquid processing applications. Its naturally hydrophobic PTFE membrane makes this cartridge an ideal choice for systems requiring excellent compatibility, reliability and a consistently high quality filtrate.

### Product Features

Ftech-Pore TP cartridges feature:

- A naturally hydrophobic PTFE membrane rated at 0.2µm in liquids and 0.01µm in gases
- Polypropylene support
- Minimal fibre migration
- Wide chemical compatibility
- Validation by bacterial and aerosolised bacteriophage challenge

All cartridges are thermally bonded and adhesive free. Each unit is pre-flushed with ultra-pure water and integrity tested before final assembly\*1.

- Can be steam sterilised
- Sanitisable
- Meet current US FDA CFR Title 21 requirements
- Fully integrity testable by Water Intrusion, Bubble Point or Diffusion Flow test\*1
- All B grade modules are integrity tested during manufacture

Available in a wide range of grades & absolute rated pore sizes:

- 0.1, 0.2, 0.45, 1.0µm and solvent grade
- General Grade
- Biological Grade

Suitable for most sanitisation regimes including steaming, autoclaving, hot-water flush and most common sanitising agents.

Suitable for most sanitisation regimes including steaming, autoclaving, hot-water flush and most common sanitising agents.

(Note: Steaming, autoclaving and hot water sanitisation must use the stainless steel support ring or the glass filled end-cap option)

Filters manufactures a comprehensive range of filter housings for Ftech-Pore TP cartridges including the industrial 50 and 60 Series and the 70 Series for hygienic applications.

## Ftech-Pore TP FEATURES AND BENEFITS

- Fully Integrity Testable - Water Intrusion, Bubble Point and Diffusional Flow values provided for all biological grade pore sizes\*1
- Validated\*2 removal ratings for consistent and reliable performance
- Feature naturally hydrophobic PTFE membrane and Polypropylene hardware
- Thermal bonding process eliminates adhesives and ensures minimal extractables
- Identification mark on every cartridge
- Full product guide available
