

**NEW MULTI STAGE SINGLE
PASS FILTRATION HOUSING.**

**ACHIEVE CLEAN OIL IN A
SINGLE PASS.**

Extensively specified into:

- Industrial
- Manufacturing
- Automotive industry
- Paper Mills
- Steel Making

Introduction

Single pass filtration skid from Filtertechnik with Schroeder filtration technology to achieve cleanliness codes ISO22/20/18 down to ISO 17/15/12 with capabilities of water removal.

Features

- 3 Stage Filtration
- Up to 380 l/min
- Achieve incredible clean-up in a single pass
- ISO 22/20/18 down to ISO 17/15/12
- Filter elements selectable from 25,10,5,3 &
- 1µm Absolute rated
- Water removal options
- Easy element change-outs
 - DP pressure gauges to show filter change-out due

Benefits

- Small footprint
- Easy to transport
- Increased dirt holding capacity
- Staged filtration possibilities to reduce element change out
- Flexible filter element selection - water removal options available
- Simple element changeover
- Perfect for replenishing systems with filtered oil and end of production line
